

Improving the MPA Inventory

Fact Checking for New Natural and Cultural Resource Information for the Marine Protected Areas Inventory

QAQC Report

These report data are accurate from:

Friday, January 25, 2013

Page 1 of 48

Review Agency American Samoa Department of Commerce

Site ID AS2

Site Name Leone Pala

Site URL http://data.nodc.noaa.gov/coris/library/NOAA/CRCP/project/1188/us_reefs_mpa_status_report_vol_1_2004.pdf

Program Authority Dept. Marine and Wildlife Resources (American Samoa)

Additional legal authority

Designation Territorial

ManagementType Conservation Area

AllowedUses Habitat disturbance/removal

Authority Provided Program

Legal Code Reference Section 24.0503 of the American Samoa Coastal Management Act of 1990 designated Pago Pago Bay, and the "pala" or wetland areas of Nu'uuli and Leone as special management areas (SMAs) because of "their unique and valuable characteristics and to the imminent threat from development pressures" (ASCA § 24.05).

Species Resource Groups Present

Site_ID	Attribute
AS2	Fish (Reef fish, tropical)
AS2	Benthic Algae

Potential Species Resource Groups

Fish (Groundfish West Coast)
Fish (Coastal Pelagic)
Fish (Highly Migratory Marine Species)
Birds (Seabird)
Marine Mammals (Cetaceans)
Marine Mammals (Pinnipeds)
Marine Mammals (Fissipeds)
Benthic Invertebrates (mobile and sessile)
Benthic Algae
Rocky Intertidal Invertebrates (Mobile/Sessile)
Rocky Intertidal (Algae)
Fish (Estuarine/Coastal Marine)
Birds (Estuarine/Coastal)
Fish (Anadromous)
Sea Turtle
Fish (Reef fish, tropical)
Hydrothermal Vent Species
Marine Mammals (Sirenia)
Birds (Waterfowl)
Birds (Other)
Deepwater Species
Fish (Demersal East Coast)
Fish (Freshwater Demersal)
Fish (Freshwater Pelagic)
Coastal Marine Reptile

QAQC Report

Present Physical Resource Groups

Site_ID	Attribute
AS2	Mangrove Forests
AS2	Wetlands/MudFlats
AS2	CMECS (Estuary)

Potential Resource Groups

- Beach
- Barrier Islands
- Islands
- Rocky Reefs
- Sand Dunes
- Seamounts/Pinnacles
- Submarine Canyons
- Wetlands/MudFlats
- Rivers/Streams
- Sea Grass
- Kelp Forest
- CoralReef
- Rock Intertidal
- Hydrothermal Vents/ Cold Seeps
- Upwelling Zones
- Transition Zones
- Oceanographic Fronts
- Oceanographic Gyres

Biological Use Resource Groups

Site_ID	Attribute
AS2	Fish spawning area
AS2	Oyster/Shellfish beds
AS2	Nursery grounds

Potential Biological Uses Resource Groups

- Coral Reef (Tropical)
- Coral Reef (Temperate)
- Sea grass habitat
- Kelp and Algae
- Oyster/Shellfish beds
- Marine mammal haulout
- Bird nesting habitat
- Bird migratory area
- Essential fish habitat (EFH) conservation area
- Fish spawning area
- Nursery grounds
- Marine Mammal Breeding area
- Endangered Species (ESA listed)
- Turtle nesting area
