

How do I know if my site may be eligible to join the national system?

As part of the nomination process for the national system of MPAs, the Program Summary Sheets posted below are made available to each managing agency with eligible sites so that the managing agency can determine which, if any, sites it wishes to nominate and provide remaining information required for the nomination process. The Program Summary Sheets are derived from the MPA Center's MPA Inventory, and include MPAs that are potentially eligible for the national system because they meet most of the entry criteria specified in the *Framework for a National System of Marine Protected Areas of the United States of America*. More information on the [nomination process](#) and the [MPA Inventory](#) is available at www.mpa.gov.

For questions on the Program Summary Sheets posted below, or to report any errors, please contact Lauren.Wenzel@noaa.gov.
